## CUSTOMER REVIEWS

*What are customers saying about Adams' planters?*

### 34" height makes gardening comfortable

"This has been a real blessing to me. I thought I was going to have to give up gardening due to my very bad back. But, now I can do it without bending at all since these are waist high." ~ brattsgirl

"I have problems with my back and this is a perfect height." ~knitting sister

### Sturdy

"It is sturdy and very attractive. I don't usually like to write reviews, but this plant stand deserves 5 stars" ~ Lyndady

### Will not rot

"I bought these to replace wooden boxes that after three years had rotted. I have absolutely NOTHING negative to say and am so glad I invested in these as I am sure they will last many more years than the wooden ones!" ~Robin

### Eliminates common pests

"Sure, this planter is easy on your back and knees, but it is also perfect if you want to keep pesky rabbits from munching on your plants." ~ KSGarden

"They have a lot less bugs then I had to deal with last year since they are up off the ground." ~Nita
